# TREASURER'S REPORT, 1910.

---

TREASURER'S OFFICE,

City Hall, Toronto, March 31st, 1911.

*To His Worship the Mayor:*

SIR,—I have the honor to hand in herewith the Annual Report of the Civic Receipts and Disbursements for the year 1910, with the usual supplementary statements relative to the City Debt, the Sinking Funds, and other special accounts as under, all of which have been duly examined, and are accompanied by the Report of the City Auditor.

1. A statement of Receipts and Disbursements.
2. A statement of Expenditure for 1910 on account of Local Improvement Works and Services, showing separately each class of improvement.
3. A statement of the Current Assets and Liabilities of the City, and condensed Balance Sheet, as on 31st December, 1910.
4. A statement showing the amount of insurance effected on the Corporation property, and the names of the several companies participating therein.
5. A statement relating to the City Debenture Debt in its several branches.
6. A statement of City assessment and other statistics.

The above statements necessarily contain an immense mass of detailed matter, but the Treasurer, after conference with the Board of Control, was instructed to continue these detailed statements as heretofore. At the same time it was suggested that a condensed statement of revenues and expenditures might be compiled and framed somewhat on the lines of the annual Estimates, with distinctive headings, and showing separately (1) controllable and uncontrollable expenditures from current revenue and taxation; (2) capital expenditures; and (3) all mere financial transactions; and in like manner a condensed statement of revenues, showing (1) amount derived from ordinary taxation; (2) amount received from revenues other than taxation; and (3) financial transactions, including proceeds of debentures and receipts from special deposits and investments, bank advances, etc. These condensed statements of revenues and expenditures have been prepared and are herewith subjoined. The detail of each item of income and expenditure can be readily traced and found in the detailed statement of receipts and expenditures. I have also prepared and submit herewith a summarized statement of the Water Works receipts and maintenance and

---

capital expenditures for the year 1910, together with a statement of the Water Works debenture debt as on 31st December, 1910.

I also forward statements of the current accounts for 1910 of the Board of Education, the Separate School Board and the Public Library Board.

The financial year commenced with a balance in hand and in banks amounting to \$2,494,575.19, and the receipts from the ordinary revenues, taxation, sale of debentures, etc., amounted to \$14,620,892.40. The disbursements, including redemption of debentures and sinking fund investments, amounted to \$16,014,351.51, leaving at the close of the year a balance of cash in hand and in bank (including sinking fund deposits) amounting to \$1,101,116.08.

#### REVENUE AND EXPENDITURES AND UNPROVIDED APPROPRIATIONS, 1910.

After the passage of the Estimates for 1910, the Council found it necessary to make supplementary appropriations to the amount of \$78,719. This amount was decreased by a surplus over the estimated Revenue of \$44,380, making a net deficit of \$34,339.

The following statement shows the amount of unprovided expenditures and liabilities incurred subsequent to the passage of the Estimates of last year:

Uncontrollable .....	\$35,200 00
Board of Works .....	35,156 00
Parks and Exhibitions .....	8,363 00
	<hr/> \$78,719 00

The remarks which accompanied the presentation of the Civic Estimates last year, the very full discussions which attended their consideration, and the statement which, as heretofore, accompanied them, render it unnecessary to go into any further consideration of the latter at the present time.

#### THE CITY DEBT.

I beg to draw special attention to the City Debenture Debt Statements, containing an analysis of the whole of the bonded debt of the City, set forth in full detail with great elaboration, exhibiting under distinctive headings of "General," "City's Share of Local Improvements," and "Local Improvement" Issues, which are severally and minutely analyzed as to the issue being in currency or sterling, the purpose of the same, the numbers of the Debentures, the numbers of the By-laws, the rates of interest, and the dates of maturity, thus enabling every Debenture holder at once to locate his Debenture, and trace it from the date of its issue to that of its maturity.

General Debentures (including late Towns of Parkdale and East Toronto and late City of West Toronto) to the amount of \$60,410.61, and Local Improvement Debentures, including the City's share of local improvement works and services, to the amount of \$1,229,815.78, were retired last year, aggregating \$1,290,226.39.

Local Improvement Debentures, including the City's share of local improvement works and services, and Street Railway Pavement Debentures, amounting to \$2,465,189.86, were issued last year.

General Debentures, amounting to \$961,208, were issued last year.

The following will mature during 1911:

General (including Parkdale, East and West Toronto) .....	\$42,864 82
Local Improvement (including City's share and East and West Toronto) .....	1,188,240 89
	<u>\$1,231,105 71</u>

The bonded debt of the City on the 31st December last was \$37,967,039 46

1. General City Debt (including Parkdale, East and West Toronto) .....	\$26,549,610 91
2. City's share of the cost of Local Improvement Works (including Toronto Railway and West Toronto) .....	4,541,579 57
3. Ratepayers' share of cost of Local Improvement Works (including East and West Toronto) .....	6,875,848 98
Total .....	<u>\$37,967,039 46</u>
Deduct Sinking Funds on hand .....	9,469,359 36
Net Debt .....	<u>\$28,497,680 10</u>

General Debentures to the amount of \$6,224,155 have been authorized, but not negotiated. A large portion of the money has yet to be expended.

Of the above debt, a portion was expended in works and services which are revenue producing or specially rated, as follows:

1. Water Works .....	\$7,334,431 78
2. New Esplanade Loan .....	356,000 00
3. Exhibition, New Permanent Buildings .....	1,137,647 00
4. Street Railway Pavement Loans .....	1,817,622 62
5. Local Improvement Loans (specially rated) .....	6,875,848 98
Making together .....	<u>\$17,521,550 38</u>

The sinking funds annually set apart pursuant to statute will be sufficient to pay off the debentures as they mature, save and except the debentures authorized to be renewed under the old Consolidation Act.

#### BORROWING POWERS.

The borrowing powers of the City are regulated by statute. The debt is limited to 12½ per cent. on the first one hundred million dollars of all the assessable property in the municipality, and to 8 per cent. on the excess of assessment over that amount. In computing the margin of the City's borrowing powers, the Water Works debt being a revenue producing investment,

---

and the Local Improvement Debt being specially rated, are not counted. After making these allowances and computing the debt on the assessment for 1911, there is still a margin of about \$4,000,000 available for further additions to the debt.

#### CITY ASSESSMENT AND REVENUES.

In considering the City debt, the value of the property and other assets possessed by the City should not be overlooked. The estimated value of this property is over \$20,000,000, and a large amount of it is revenue producing. This valuation is exclusive of all the public works and services of the City, which have been provided at heavy cost to the taxpayers, and, though not available assets, are required for public use and convenience. The water lots owned by the City, the walks and gardens and other leasehold property, with the Market Block Property, yield an annual revenue of about \$187,000, which will increase from year to year as the leases mature and are renewed. This revenue from the City properties, exclusive of the Water Works, at 3½ per cent., represents a capital of nearly \$5,300,000. In addition, during the current year it is estimated that the City will receive a revenue from licenses, police court fines, cattle market and weigh house fees, and the street railway service, etc. (exclusive of that derived from the Water Works), of about \$1,290,500. The estimated revenue this year from the Water Works is \$900,000.

These, with other revenues, make the estimated annual revenue of the City for 1911, \$2,587,144. Adding a surplus of \$44,380 in the Revenue of 1910, makes the total amount available \$2,631,524, exclusive of amount raised by taxation.

This added to the estimated revenue to be received from general taxation and local improvement rates, together amounting to \$6,313,403, make the aggregate estimated revenues from all sources \$8,944,927.

#### THE STREET RAILWAY REVENUE.

The receipts from the Street Railway earnings continue to increase. In 1909 the City's share of the revenue amounted to \$589,955, and in 1910 to \$679,338, the increase being \$89,383.

The number of passengers carried in 1910 was 109,415,264, an increase of 11,297,273 over 1909, which yielded gross earnings amounting to \$4,377,116, being an increase of \$450,288 over 1909. The number of transfers for 1910 was 42,630,756, an increase over the previous year of 4,479,160. The financial statement to 31st December, 1910, shows a net profit of \$1,211,159, or an increase over that of 1909 of \$118,777. Out of the net profits for 1910 four quarterly dividends of 1¾ per cent. each, aggregating \$560,000, have been declared, which leaves \$651,159 to be carried forward as at 1st January, 1911. The estimated revenue to the City for 1911 is: Mileage, 83,300; Percentage, \$716,700; total, \$800,000.

The company's *net earnings* in 1910 were \$2,139,928, an increase of \$209,015 over the net revenue of 1909.

The following statement shows the revenue received from the Toronto Railway Company since the company obtained the franchise in 1891:—

YEAR.	MILEAGE.	PERCENTAGE.	TOTAL.
	\$ c	\$ c.	\$ c.
1891 (four months only) . . . .	18,134 94	22,967 10	41,102 04
1892 . . . . .	55,134 00	65,239 38	120,373 38

1908 . . . . .	81,158 00	447,397 67	528,555 67
1909 . . . . .	82,127 62	507,827 49	589,955 11
1910 . . . . .	83,040 38	596,297 35	679,337 93
	1,370,297 09	4,195,961 52	5,566,458 81

\* A portion of the mileage receipts was for arrears.

No effort has been spared by myself and the members of my staff to protect the interests of the corporation, and the revenues and expenditures have been carefully scrutinized and administered on lines of the strictest economy.

I trust the Report, with the several supplementary statements, which year to year it is the earnest desire and endeavor of this Department to render more full and explanatory, will commend itself to the approval of the Council.

I have the honor to be, Sir,

Your obedient servant,

R. T. COADY, F.C.A.,  
City Treasurer.

# AUDITOR'S REPORT, 1910.

---

CITY AUDITOR'S OFFICE,

City Hall, Toronto, June 23rd, 1911,

*To His Worship the Mayor and Council of the Corporation of the City of Toronto:*

GENTLEMEN,—I beg to advise having completed the audit of the civic accounts for the year 1910, and attach hereto comparative statements for 1909 and 1910 of the more important civic financial matters.

## OUTSIDE AUDITS.

In spite of the multiplying duties of the Department, all the outside audits have been efficiently maintained and the several civic departments have been regularly and systematically inspected.

In addition to the work of which this Department has hitherto had the oversight, there will this year, in all probability, be added to its work under the terms of the Acts creating them, the audit of the books of the "Hydro-Electric Commission," and also of the "Harbor Commission." This will practically mean, in addition to the work in the departments centred in the City Hall, seven outside audits, to be carried on simultaneously with all the varied and growing civic requirements, a work of no slight magnitude and importance.

## DEPARTMENTAL AUDITS.

All the departments have been regularly audited, in so far as they have had to do with the collection or disbursement of civic funds is concerned, all sources of revenue and expenditure having been kept under review with more or less frequency as the exigencies of the case seemed to require, especially in connection with the Treasurer's Department, Police Court, License Department and Water Works (Revenue Branch), and Street Railway.

## CIVIC PROPERTIES.

In my report for 1909 I called attention to the compilation of a list of the civic properties which had been completed, and made a recommendation thereanent. I regret that no action has been taken in this matter, which I deem of sufficient importance to again bring to your notice.

## TAX ROLLS.

In my report of 1909 I also referred to the matter of the tax collection. The conditions then prevailing have not improved. The roll of 1907 has only now been closed, those of 1908-9-10 are still outstanding, and that of 1911 is practically in the hands of the collectors.

---

The roll for 1907 was sworn off in the following order:

Ward 1.....	22nd February, 1911.
“ 2.....	8th February, 1910.
“ 3.....	4th November, 1910.
“ 4.....	29th October, 1909.
“ 5.....	28th February, 1911.
“ 6.....	5th May, 1911

It will thus be seen that between the return of the first and last ward roll there was a period of no less than a year and six months, whilst the earliest roll returned was not sworn off until nearly eighteen months after it was due, and still the collector of Ward 4 is by far the most prompt in the return of his rolls.

For 1908 Ward 4 was sworn off 4th November, 1910.

For 1908 Ward 3 was sworn off 21st March, 1911.

For 1909 Ward 7 was sworn off 5th May, 1911.

Wards 2 and 4 for 1909 are in the hands of the Treasurer, but not yet sworn off.

That this condition of affairs is a considerable source of loss to the City must be apparent; the loss in the non-collection of income taxes alone being a serious item. The fact is that the City has outgrown the present system, and the conditions call imperatively for a remedy, and in my study of the subject the solution I have to suggest is that the present system of tax collection be so rearranged that the tax collection shall be made more effectively a branch of the City Treasurer's Department, under the charge of a strong and competent official who would have complete control of his staff, and who would be required to return his rolls promptly to the official in charge of the arrears of taxes not later than 31st December of the year following that of the date of the roll.

I would respectfully recommend that this matter receive your immediate and serious consideration, and if, as I think it will, legislation be required to bring about the change outlined, that the Solicitor be authorized to obtain the necessary authority.

#### PRIVATE DRAINS.

Owing to the methods adopted in the Department, the City has been making a considerable profit on the laying of private drains. It does not appear to me that this custom should continue, and whilst the City should be at no loss in regard to this class of work, neither should it exact a profit on its performance, especially having regard to the fact that the employment of the Department to perform the work is obligatory on the citizens requiring it. I therefore beg to recommend that no greater charge be made for private drains than the amount actually expended, and that I be authorized to institute such changes in the accounting of the Department as will effect this purpose.

## STORES ACCOUNTING.

I have, for a considerable time past, been dissatisfied with the method of handling and accounting of stores in the Engineer's Department, and last summer made a personal inspection of the various yards and storehouses to ascertain the methods pursued, as well as the general routine of the office staff. There has hitherto been no special accord between the value of stores and the accounts representing the same in the Treasurer's books, and it has been my desire to bring about such an adjustment of accounting as will at stock-taking at the end of each year make it possible to harmonize the accounting of the Department with that of the Treasurer's ledger, and thus prove that all stores purchased by the City have been duly accounted for.

I am of opinion that the time is opportune for the consideration of the establishment of a Purchasing Department for the whole requirements of the City, but if it is not thought desirable to go so far at once, then, in connection with the subject under discussion, I beg to recommend that a purchasing agent be appointed for the Engineer's Department—that all stores be placed under his charge and that he be responsible for all accounting in connection with the same. To fit in such an official, considerable rearrangements and adjustments would be required in the accounting branch of the Department to insure a vigorous and prompt enforcement of the methods adopted to bring about the required results. The accounting branch of the Department ought, in my judgment, to have more power than it appears to possess, so that it could enforce from the engineering branches prompt returns to enable it to meet the demands on it. I do not think it necessary to go into details regarding methods and systems; these can all be dealt with through the routine of the Department should the policy outlined be adopted; if not, then it will be necessary to take matters as they stand and do the best possible with them.

## SINKING FUNDS.

The sinking funds in connection with the City's debenture debt have all been carefully supervised and have been maintained at their proper level, the bank balances and investments having all been checked and verified.

\* \* \* \* \*

The guarantee bonds of the several officials requiring the same have been kept in force.

The following statistics are appended for the information of Council:

Debenture Debt Statement, Summary of Receipts and Expenditures, Water Works Capital Account, Water Works Revenue Account, Water Works General Statistics, General Balance Sheet.

I have the honor to be, gentlemen,

Your obedient servant,

WALTER STERLING,  
*City Auditor.*

# TREASURER'S REPORT, 1911.

---

TREASURER'S OFFICE,

City Hall, Toronto, March 30th, 1912.

*To His Worship the Mayor:*

SIR,—I have the honor to hand in herewith the Annual Report of the Civic Receipts and Disbursements for the year 1911, with the usual supplementary statements relative to the City Debt, the Sinking Funds, and other special accounts as under, all of which have been duly examined, and are accompanied by the Report of the City Auditor.

1. A statement of Receipts and Disbursements.
2. A statement of Expenditure for 1911 on account of Local Improvement Works and Services, showing separately each class of improvement.
3. A statement of the Current Assets and Liabilities of the City, and condensed Balance Sheet, as on 31st December, 1911.
4. A statement showing the amount of insurance effected on the Corporation property, and the names of the several companies participating therein.
5. A statement relating to the City Debenture Debt in its several branches.
6. A statement of City assessment and other statistics.

The above statements necessarily contain an immense mass of detailed matter, but the Treasurer, after conference with the Board of Control, was instructed to continue these detailed statements as heretofore. At the same time it was suggested that a condensed statement of revenues and expenditures might be compiled and framed somewhat on the lines of the annual Estimates, with distinctive headings, and showing separately (1) controllable and uncontrollable expenditures from current revenue and taxation; (2) capital expenditures; and (3) all mere financial transactions; and in like manner a condensed statement of revenues, showing (1) amount derived from ordinary taxation; (2) amount received from revenues other than taxation; and (3) financial transactions, including proceeds of debentures and receipts from special deposits and investments, bank advances, etc. These condensed statements of revenues and expenditures have been prepared and are herewith subjoined. The detail of each item of income and expenditure can be readily traced and found in the detailed statement of receipts and expenditures. I have also prepared and submit herewith a

---

summarized statement of the Water Works receipts and maintenance and capital expenditures for the year 1911, together with a statement of the Water Works debenture debt as on 31st December, 1911.

I also forward statements of the current accounts for 1911 of the Board of Education, the Separate School Board and the Public Library Board.

The financial year commenced with a balance in hand and in banks amounting to \$1,101,116.08, and the receipts from the ordinary revenues, taxation, sale of debentures, etc., amounted to \$22,944,454.72. The disbursements, including redemption of debentures and sinking fund investments, amounted to \$21,914,796.10, leaving at the close of the year a balance of cash in hand and in bank (including sinking fund deposits) amounting to \$2,130,774.70.

#### REVENUE AND EXPENDITURES AND UNPROVIDED APPROPRIATIONS, 1911.

After the passage of the Estimates for 1911, the Council found it necessary to make supplementary appropriations to the amount of \$6,312. This amount was increased by a deficit in the estimated Revenue of \$148,925, making a net deficit of \$155,237.

The following statement shows the amount of unprovided expenditures and liabilities incurred subsequent to the passage of the Estimates of last year:

Uncontrollable .....	\$6,312 00
----------------------	------------

The remarks which accompanied the presentation of the Civic Estimates last year, the very full discussions which attended their consideration, and the statement which, as heretofore, accompanied them, render it unnecessary to go into any further consideration of the latter at the present time.

#### THE CITY DEBT.

I beg to draw special attention to the City Debenture Debt Statements, containing an analysis of the whole of the bonded debt of the City, set forth in full detail with great elaboration, exhibiting under distinctive headings of "General," "City's Share of Local Improvements," and "Local Improvement" Issues, which are severally and minutely analyzed as to the issue being in currency or sterling, the purpose of the same, the numbers of the Debentures, the numbers of the By-laws, the rates of interest, and the dates of maturity, thus enabling every Debenture holder at once to locate his Debenture, and trace it from the date of its issue to that of its maturity.

General Debentures (including late Towns of Parkdale and East Toronto and late City of West Toronto) to the amount of \$42,864.82, and Local Improvement Debentures, including the City's share of local improvement works and services, to the amount of \$1,188,240.89, were retired last year, aggregating \$1,231,105.71.

Local Improvement Debentures, including the City's share of local improvement works and services, and Street Railway Pavement Debentures, amounting to \$1,290,536.08, were issued last year.

General Debentures, amounting to \$4,953,755, were issued last year.

The following will mature during 1912:

General (including Parkdale, East and West Toronto and Township of York School Debentures) .....	\$38,791 32
Local Improvement (including City's share and East and West Toronto) .....	720,772 89
	<u>\$759,564 21</u>

The bonded debt of the City on the 31st December last was \$43,110,471 94

1. General City Debt (including Parkdale, East and West Toronto and Township of York School Debentures) .....	\$31,590,748 20
2. City's share of the cost of Local Improvement Works (including Toronto Railway and West Toronto) .....	4,585,911 19
3. Ratepayers' share of cost of Local Improvement Works (including East and West Toronto) .....	6,933,812 55
Total .....	<u>\$43,110,471 94</u>
Deduct Sinking Funds on hand .....	9,907,203 00
Net Debt .....	<u>\$33,203,268 94</u>

General Debentures to the amount of \$6,454,829 have been authorized, but not negotiated. A large portion of the money has yet to be expended.

Of the above debt, a portion was expended in works and services which are revenue producing or specially rated, as follows:

1. Water Works .....	\$7,582,020 22
2. New Esplanade Loan .....	356,000 00
3. Exhibition, New Permanent Buildings .....	1,137,647 00
4. Street Railway Pavement Loans .....	1,817,622 62
5. Local Improvement Loans (specially rated) .....	6,933,812 55
6. Electric Power Distribution .....	2,750,000 00
Making together .....	<u>\$20,577,102 39</u>

The sinking funds annually set apart pursuant to statute will be sufficient to pay off the debentures as they mature, save and except the debentures authorized to be renewed under the old Consolidation Act.

---

---

BORROWING POWERS.

The borrowing powers of the City are regulated by statute. The debt is limited to 12½ per cent. on the first one hundred million dollars of all the assessable property in the municipality, and to 8 per cent. on the excess of assessment over that amount. In computing the margin of the City's borrowing powers, the Water Works debt being a revenue producing investment, and the Local Improvement Debt being specially rated, are not counted. After making these allowances and computing the debt on the assessment for 1912, there is still a margin of about \$4,000,000 available for further additions to the debt.

## CITY ASSESSMENT AND REVENUES.

In considering the City debt, the value of the property and other assets possessed by the City should not be overlooked. The estimated value of this property is over \$20,000,000, and a large amount of it is revenue producing. This valuation is exclusive of all the public works and services of the City, which have been provided at heavy cost to the taxpayers, and, though not available assets, are required for public use and convenience. The water lots owned by the City, the walks and gardens and other leasehold property, with the Market Block Property, yield an annual revenue of about \$140,000, which will increase from year to year as the leases mature and are renewed. This revenue from the City properties, exclusive of the Water Works, at 3½ per cent., represents a capital of nearly \$4,000,000. In addition, during the current year it is estimated that the City will receive a revenue from licenses, police court fines, cattle market and weigh house fees, and the street railway service, etc. (exclusive of that derived from the Water Works), of about \$1,691,962. The estimated revenue this year from the Water Works is \$960,000.

These, with other revenues, make the estimated annual revenue of the City for 1912, \$2,872,062. Deducting the deficit of \$148,925 in the Revenue of 1911, makes the total amount available \$2,723,137, exclusive of amount raised by taxation.

This added to the estimated revenue to be received from general taxation and local improvement rates, together amounting to \$7,250,263, make the aggregate estimated revenues from all sources \$9,973,400.

## THE STREET RAILWAY REVENUE.

The receipts from the Street Railway earnings continue to increase. In 1910 the City's share of the revenue amounted to \$679,338, and in 1911 to \$772,109, the increase being \$92,771.

The number of passengers carried in 1911 was 120,997,844, an increase of 11,582,580 over 1910, which yielded gross earnings amounting to \$4,851,541, being an increase of \$474,425 over 1910. The financial statement to 31st December, 1911, shows a net profit of \$1,177,392, a decrease from that of 1910

of \$33,767. Out of the net profits for 1911 two quarterly dividends of 1¾ per cent. each, and two quarterly dividends of 2 per cent. each, in addition to a stock bonus dividend of \$1,000,000, aggregating \$1,671,158, have been declared, which leaves \$506,234 to be carried forward as at 1st January, 1912. The estimated revenue to the City for 1912 is: Mileage, \$90,000; Percentage, \$845,000; total, \$935,000.

The company's *net earnings* in 1911 were \$2,198,179, an increase of \$58,251 over the net revenue of 1910.

The following statement shows the revenue received from the Toronto Railway Company since the company obtained the franchise in 1891:—

YEAR.	MILEAGE.	PERCENTAGE.	TOTAL.
	\$ c.	\$ c.	\$ c.
1891 (four months only).....	18,134 94	22,967 10	41,102 04

\* A portion of the mileage receipts was for arrears.

No effort has been spared by myself and the members of my staff to protect the interests of the Corporation, and the revenues and expenditures have been carefully scrutinized and administered on lines of the strictest economy.

I trust the Report, with the several supplementary statements, which year to year it is the earnest desire and endeavor of this Department to render more full and explanatory, will commend itself to the approval of the Council.

I have the honor to be, Sir,

Your obedient servant,

R. T. COADY, F.C.A.,  
*City Treasurer.*

## AUDITOR'S REPORT, 1911.

---

CITY AUDITOR'S OFFICE,

City Hall, Toronto, June 10th, 1912.

*To His Worship the Mayor and Council of the Corporation of the City of Toronto:*

GENTLEMEN,—As is usual on the closing of the Treasurer's books for the past year, which has just been completed, I beg to submit my report on the civic business for the period ending 31st December, 1911.

The year has been one of continuous growth and expanding work in the various Civic Departments, involving a steady and constant oversight by this Department which has taxed the staff to its full capacity.

The various audits of the several Departments, however, have been regularly and systematically kept up and no part of the work has been allowed to fall into arrears. In connection with the Property Department I have instituted a regular monthly audit of the new work at the Cattle Market for the sale of fodder, etc.

Regarding the general question of audits and the power and scope of this Department, I greatly regret that in the framing of the various Bills for the creation of Commissions for the management of public utilities greater care was not taken to place them under the oversight of the Civic Audit Department for audit. I am very strongly of opinion that all bodies deriving their existence from and operating for the benefit of the City should be, to the extent of their audit at least, directly amenable to the Civic Audit Department. I am of opinion that were this carried out in all cases, an added public confidence would be imparted to the various managements of these bodies, and I would urge that in future this matter should be carefully guarded, and that in the case of existing bodies they should be brought into line as soon as practicable.

I am pleased to note that action has at last been taken in the direction of obtaining a commercial valuation of the civic properties.

The Property and Assessment Commissioners have taken up the matter, using as a basis a list compiled and revised by my Department in 1909. This document, when completed, will be one of very great value to the City, the intention being to keep it continuously revised and up to date, as a standard reference, for all the civic real estate, etc.

Again in the hope that some definite action may be taken, I beg to draw your attention to the question of tax collection.

Year by year, as I have pointed out in previous reports, the conditions are becoming more intolerable and are not only a source of trouble and inconvenience, but are an actual source of serious financial loss to the City and a matter of grave injustice to those taxpayers who promptly pay their taxes as against those who, taking advantage of the present system, are able to defer payment for two, three or four years, at a cost of a 5 per cent. addition for the entire period.

Take the present condition of affairs:

Ward 6.....	1908.....	not closed.
" 1.....	}	1909.....not closed.
" 2.....		
" 3.....		
" 5.....		
" 6.....		
" 1 to 7.....	1910.....	not closed.
" 1 to 7.....	1911.....	not closed.

And in the course of a month the rolls for 1912 will be in the Collectors' hands.

It will thus be seen that a ratepayer in Ward 6 with unpaid taxes in 1908, paying these taxes now, is having his indebtedness to the City carried by it for a trifle over 1 per cent. per annum.

Whereas had this roll been promptly returned and unpaid taxes added to the arrears list, the amounts in arrear would thereafter have been liable for the statutory charge of 5 per cent. per annum. In all probability those in arrears in 1908 are also behind in 1909-10-11, and it is thus easy to see how the looseness of our methods operates to the disadvantage of the City.

It may be noted that those whose taxes are thus in arrears are not always those absolutely unable to pay, but more often those who "know the ropes," and are thus able to take advantage of the system or rather want of system existing.

The necessity for some action in this matter in my judgment is urgent, and I trust it may so commend itself to you.

I had purposed referring to the needs of reform in several sections of the Works Department, but in view of the probable changes and reorganization soon to take place there, I shall take up the subject with the new Head of that Department.

The sinking funds held by the City covering the several debenture issues have been verified and maintained at their proper level, and all bank balances have been checked and verified.

The guarantee bonds of the several officials requiring the same have been kept regularly in force.

The following statistics are appended for the information of Council.

Debenture debt statement, summary of receipts and expenditures, water works capital accounts, water works revenue account, water works general statistics, general balance sheet.

These several statements, with the exception of the last, are arranged to show comparative statistics for a three-year period in each.

I have the honor to be, gentlemen,

Your obedient servant,

WALTER STERLING,  
*City Auditor.*
